## Ring Scale Guide

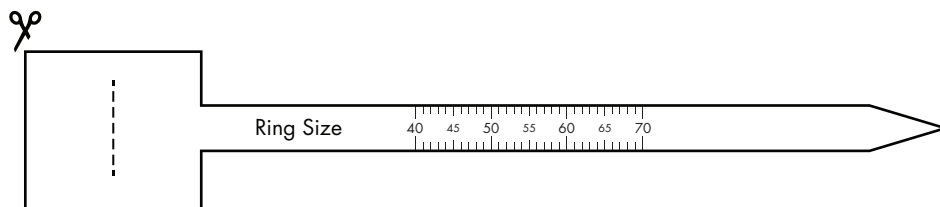

### Use a tape measure to find your ring size

Please print out the ring scale chart and make sure the "Scale to Fit" option is set to "None". You can use a ruler to measure on the scale to check if the printout is correct.

### How to find your ring size

1. Wrap the tape measure around your finger and note the measurement length in millimeter.
2. The number in millimeter would be the Nova ring size to order. (ISO/European ring size)
3. Remember that the ring will need to be snug and can pass through the entire length of the finger.
